CROSSFIELD, ALBERTA, CANADA, THURSDAY, MAY 1ST. 1941

5 CENTS A COPY

News Letter From Overseas

We are publishing the following letter received from Spr. T G. Moore, which we believe will be of interest to our readers, many of whom will remember him during his residence here. His address nay be obtained at the Chronicle

England, March 21, 1941 The Crossfield Chronicle, Crossfield Alberta.

Dear Friends:

It was certainly a lovely surprise to find a copy of the Coronicle with my Canadien mail when it arrived here March 15th. I hope you people back there realize how much we appreciate the things you are doing for us over here. It sure is a great help. And now I will be looking for the paper because I see plenty of names there that I do not hear about in any other way. For instance, right at the head of the 'Locals' column of Feb. 13 issue I see that Ed Meyers and Frank Brown left for a holiday trip to the Pacific coast. Well, you can tell them both for me that I hope they had a good time, but I know they would have because they al-waysdid when I knew them there Hat Hat

I also notice that the High I also notice that the High School boys are still keeping up the Crossfield reputation so far as aports are concerned and of sourse rehember most of the boys who are playing. I wish them the best of luck, but, by the time you receive this, they will be thinking of baseball so you can tell them I am afraid I will not he able to call "Balls and Strikes" for them t.i. summer.

I might also say right he e that I received the cake made by Mrs. McCool and it was sure swell. might say, too, that before I got out my knife with the can opener nib, I knew it was Lloyd that had idered it up. 1 guess I should

know

Now I know this is not much o a letter but really you know there is not much to write about over here—you see, the things we would like to say cannot be said some-times so just to be sure we try not to say them. So far as news is concerned, you people over there get it just as fast as we do. Where we are located at present, we can hear the planes on their way to London at night and once in a while we hear the A A, gunstaking sho or two at them, but they d The people no. bother us here, here are very friendly and anxious to make vs feel at home. Now I think I had better stop

this time bu! you may be sure I will drop a letter to Crossfield every so often. Again, I want to thank you for having the Chronicle sent to me and the people of Crossfield for the things they have done and are doing for us over

As ever. Spr. T. G Moore

P S. If any hockey and baseball boys want to drop me a line, I will sure answer it right away. "Tar."

of wherever needed.

At an early hour all the fields were completed with the pig pasttre and garden thrown in factors.

MISSION BAND TO

The Daisy Mission Band are sponsoring slides and lecture Mon-day evening May 5th in the United Church at 8 p.m

These slides are are put out by the Women's Missionary Society of Toronto and are entitled "Down Trinidad Way", which is the subject of this year's study book for Mission Bands and C.G.I.T. Groups. They therefore extend a special invitation to the Junior and Senior C.G.I.T. groups and their leaders, also to all boys and girls and their parents.

Children, 12 and under, 5 cents, all over 12, 10 cents.

The Big Bend Highway will be officially opened all the way from Calgary to Vancouver on May 3 according to word received by the Alberta Motor Association.

World's Week BY HAROLD L. WEIR

Associate editor of The Edmonto Bulletin and author of the daily column "From the News"

There is an hysterical disposition both in Britain and in Canada, to regard the German advance into Greece as a serious defeat for the Allies - a disposition which is founded neither in fact nor in

It is true that Britain poss a meagre number of fighting men in this area. And it does excite the curiosity of many intelligent folk

is stupid to exage erate the significance of a German

Harold L. Weir drive that every would sooner or later body knew

It is equally stupid to infer that he British and their allies gained nothing in the course of the struggle

In the first place, the Germans have learned that they cannot face such fighters as the British and the Greeks, even in superior numbers and with superior equipment, with-

out sustaining colossal losses.

In the second place, the legend of invincibility that surrounded the use of blitzkrieg tactics has been hattered beyond repair.

After the stunning rapid invasion of Holland in which German Panzer columns rolled as far as 200 miles a day, all Europe tremtiled in dread of what they believed was an irresistable mechanized advance, comething like the horrible senseless parch of some great Frank-natein

The German Panzer o down- can no longer be called irresistible be-

The Germans have lost more in ilitary prestige than they will ever

gain by taking Greece.

Perhaps the crux of the Ba kan affair, however, lies in the fact that Hitler has committed himself to an African and Asiatic war in which ne is bound to meet crushing defeats

Nothing now, can keep Turkey
and Russia out of the conflict ex-

pt the the most abject submission Unless Russia wants to see her fleet buttied up in the Black Sea and the Ukrama myaded, she must fight. Unless Turkey wants to be made a military highway to Iraq she must put her two milion fight ing men into the field.

These two countries have backed down before. They may back down again. Ultimately, they will have get into the war. Honorary Colonel Lindbergh has

heen making more speeches in New York and the prejudices of his listeners have been inflamed to the int of minor rioting His text is always the same, that

Britain is going to lose the war and the United States should not get mxed up with her

It is an extraordinary thing that Nazi doctrine of defeatism should be permitted to flow from public platforms in a country whose President has plainly defined the

SAVE YOUR SCRAP METAL

Millions of dollars worth of scrap iron, steel and other war materials lie derelict, on Canadian farms, in country towns and in abandoned work areas. Canada wants this material and the National Salvage Campaign has been organized to collect it. Rural residents who wish to contribute are reminded that local handling will be through municipal secretaries and elevator These persons will be able to supply all information as to times of delivery and sortment.

Growing Toll Of Britain's Churches

Official figures of the damage done by Nazi bombers to Church property in England and Wales comes on the of the affirmation of the Hitler creed in a home broadcast to German youth.

"This," the announcer declared, "is the Creed of our time: We be lieve in Hitler. And what of the old Creeds? The scriptures are dead. We need no fairy tales today. Believing, we entrust our destiny to our Feuhrer."

As a practical contribution to the Nazi point of view, their bombers 2.659 churches of all denominations in England and Wales, apart from vicerages, convents, church halls and manses. Among the 714 which have been completely destroyed or ser-iously damaged are the cathedrals of Coventry, Llandaff and St. Paul's (although the main fabric of the latter remains untouched), West-minster Abbey, Westminster Cath-edial, and the Deanery of Canterbury have all scars to show the meaning of "kultur". No tewer than 108 vicarages 304 church halls, 236 church schools, and 36 convents have all been wrecked,

The fact that this Nazi attitude to Christianity is not shared by all who live within the Reich may be interred from much bigger attendances reported at Catholic and Protestant Churches and the increasing sale of the Bible to Germans, other than Nazis. It has gone up from 830,000 in 1930 to 1,525,000 last year

CONTINUED FROM PAGE 1 national purpose as the defeat of

If this is the American national purpose, Lindbergh is interfering with it quite as much and as dangerously as the saboteurs who

blow up factories and sink ships.
In other words the man is a rotten traitor to the fundamental aims of his country.

In Canada Lindbergh would be shot. Why not in the United States

The Chronicle invites its readers to listen to the Saturday Night now destroyed or damaged churches of all denominations over raaio station CFRN (1260 kc) every Saturday night at 8:15.

Seriously Burned

WARNS OF LEVEL **CROSSING DANGERS**

With the motoring season son n fulls sing, officials f the Alberta Motor Association have sounded a warning as to the dangers of level erossings.

Deivers arous and to take over me safety pregautians before crossing the railway.

During last year seven persons were killed in railway accidents in this province, according to official figures issued by the provincial putlie works department In addition 21 other persons were injured in railway grossing accidents

Each year this type of accident takes a fearful toll in this province and there has been practically no reduction of the average in recent roore

Just a little extra care on the part of the motorist probably would save himself or his passengers from ser ions personal injury and even death In order to effect greater safety at there crossings, the highway traffic board has passed a regulation which requires all school vans to be brought to a full stop at a point no ess than 10 feet nor more than 50 feet from the crossing. Further more, any school van about to enter a main provincial highway shall be brought to a full stop not less than 10 feet nor more than 90 feet from the highway

SEEDING FORAGE CROPS

There is likely to be a consider able increase in forage crops this year on account of the wheat acre age reduction program.

Land for seeding forage crops should be be clean. Summer-failow is not necessary unless perennial weeds infest the field. Stubble land should be cultivated lightly during early spring to sprout weed seeds which may be destroyed later and immediately before the forage sees

Early seeding of forage crops, when the weather is cool, has been found satisfactory, but seeding as late as late as July 1st is permissible. It is important that the soil be moist at the time of seeding, for seed own in loose dry soil is not likely to produce a good stand

Seed may be sown with a drill a a depth of not over one inch. To p ovide bulk it should be mixed with cracked wheat - about 1 lb of seed to 2 lbs. of cracked wheat from which the flour is sifted - is atisfactory.

Only the best seed should be used as poor seed is likely to contain weeds that may infest the farm and cause a serious weed problem.

Farmers who contemplate the

Farmers who contemplate the seeding of any forage orop will de-sire complete information, which they may obtain from the Field Crops Branch, Department of Agriculture, Edmonton.

The World of Wheat

By H. G. L. Strange

Last week, in this column. I ar gued? that the present Canadian surplus of wheat had not been brought about, as many think, by an increase of wheat acreage by Canadian farmers, because, I showed, the statistics reveal that world population and the world's actual consumption of wheat has actually increased during the past twenty years to a greater extent than Canadian wheat acreage has expanded.

Why then, it might be asked has a wheat surplus in Canada accumulated? For a very simple reason I find. It is that Canadian es of wheat overseas have not kept pace with the world's increase in population, nor with the world's increased consumption of wheat. Canadian sales instead have great ly decreased during the past 20 years

Why, it might be asked, should creased, while the world was stead. ily consuming more wheat each year? Because mainly of another most simple but pathetic fact that the governments of the world, in cluding Canada, raised tariffs and put hindrances in the way of our customers selling their own goods So, therefore, goods being the only real money in the main the only real money in the main canada totals 903 million bushels that people have with which to buy things, as the importation of other peoples goods into Canada declined, so have Canadian exports of wheat to those people in other people in the original properties of the original properties or the original propertie

turn declined.

Following factors have tended to raise price: Unoccupied France is negotiating for large quantities of U.S. wheat—Canadian exports of wheat and flour for March amounted to 21.4 million bushels, the highest March shipments sinc 1929 — Late wintry weather and war operations in the Balkans dis-rupt plans for increased seeding-Reports from Roumania indicate

a serious shortage of foods. Following factors have tended to lower price: The U.S. winter wheat crop continues to make progress under generally favorable conditions—Estimated wheat surplus for export or carryover in 1941 for Argentine, Australia and Canada totals 903 million bushels

Alberta farmers will receive about \$10,000 000 of the \$35,000,-000 total allocated for summerfall owbonus payments by the federal government, it was announced by E. L. Gray last week. Formerly a member of the Legislature and leader of the provincial Liberal organization, Mr. Gray has now been appointed head of the bonus scheme here. Bonus will vary "from \$2 an acre for former wheat lands devoted to coarse grains to \$6 an acre for summerfallow, fall rye or grass", he It is possible, he added, that GOOD SEED POTATOES special information meetings will be held at rural points to esplain the scheme's provisions.

The prospective bride was worr-ied: "Darling," she said, "it 1 marry you l'Il lose my job."
"But sweetheart, can't we keep the marriage a secret?" ventured the

Certified seed potatoes should be used for seed whenever possible. Such seed is practically disease-free and has been selected to produce high vields. The yields from certified seed are consistently above those obtained from 'ordinary' potatoes

Every commercial potato grower should plant a seed plot which may be given special care to insure high quality seed the following year. Care of the seed crop will include removng all weak plants or those which show suspicion of desease. The seed plot should be located on clean land and, if possible, a quarter mile from any other potato patch, and when it will not be polluted with waste irrigation water or surface run-off

Although the seed plot is desir able for commercial growers, individual gardeners will be highly pleased with increased yields they btain from the use of certified seed When buying seed potatoes, be cer tain you get good one. Certified seed is the best to be obtained.

Unless there is an exceptionally mer, Alberta will not suffer everely from grasshopper attacks this sesson. Opinion to this effect was given by provincial department of agriculture officials during the week. It was claimed that farmers located in areas where stubble is grasshopper infested will benefit by the new federal acreage bonus policy, since past experience has proved it costly and impractical to undertake to save stubbled in land phiche is heavily infested. Urging farmers to sow only fallow land, the department points out that this will be the most economi cal procedure during the current
